

KEVIN T. BELNAS

FULL STACK DEVELOPER | IT SYSTEM & VOIP SUPPORT

Cebu City, Philippines | 09700948102 | belnaskevin03@gmail.com | kevinbelnas.vercel.app

PROFESSIONAL OVERVIEW

Resourceful Full Stack Developer and IT Systems Specialist with a proven track record of engineering, deploying, and maintaining high-impact web software and communication systems inside call center environments. Expertise spans building data-dense local CRMs handling 100k+ records, implementing complex full-stack web solutions, and integrating third-party AI APIs. Well-versed in automating operations, optimizing network communication architectures, and managing production hosting servers.

TECHNICAL SKILLS

- **Frontend Technologies:** React.js, Next.js (Exploring), Vite, Tailwind CSS, React Native
- **Backend & Databases:** Node.js, Express.js, MySQL, MSSQL, MongoDB, Supabase, Gemini AI API Integration
- **VoIP & Dialer Systems:** VICIdial Setup, SIP/VoIP Integration, DAHDI Configuration, Dialer System Administration
- **Tools & Hosting Platforms:** GitHub, Hostinger, Bluehost, Linux Server File Management, LAN Deployment, Hardware Support

WORK EXPERIENCE

IT Staff / Systems Developer — Attitech Company, Philippines

July 2025 – Present (Full-Time) | February 2025 – June 2025 (IT Intern)

- Absorbed as a full-time core engineer within 5 months of interning due to outstanding technical execution across software development and IT infrastructure.
- Engineered, configured, and maintained custom VICIdial server networks and SIP/VoIP configurations, maintaining near-zero downtime for an active 15-agent call center floor.
- Managed company server environments, secure local area network (LAN) system configurations, application code file directories, and standard hardware troubleshooting.

CORE SOFTWARE PROJECTS (ATTITECH COMPANY)

Internal Corporate CRM & Lead Manager — Full-Stack Developer

- Built a full-stack, secure system to handle and track 100,000+ active leads for 15 agents, migrating operations off Excel. Deployed locally over the company LAN via custom network configurations per strict executive security mandates for in-office exclusivity.

Fulfill1st Eco-System (Fulfill1st.com & Subdomains) — Full-Stack Developer

- Developed the corporate storefront using Vite, React, Tailwind CSS, and Node.js/Express.js, deployed via Hostinger. Built **management.fulfill1st.com** as an isolated internal administrative engine to track real-time subscription lifecycle statuses and fulfillment tasks.

Aurevo Agency AI Platform (Aurevoagency.com) — Frontend & API Integration Engineer

- Architected a fast, single-page web app utilizing Vite, React, and Tailwind CSS. Implemented advanced asynchronous **Gemini AI API integrations** directly on the frontend to generate automated book blurbs and dynamic book covers on-the-fly.

Corporate & Client Web Fleet (Attitech.ph, Pagesandpixel.com, etc.) — *Web Developer*

- Modernized Attitech's web presence and built the static architecture for partner entity Pages & Pixel using optimized React layouts. Successfully deployed, configured domains, and currently maintain a fleet of ~10 production author client websites hosted on Hostinger.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Cebu Technological University – Main Campus
